

LET THERE BE LIGHT (YEHI OR)

And there was Light. And then... where did the darkness come from? Perhaps from the insane attempt to protect an idea of smallness, of weakness, of illness, of limitation, of scarcity? Perhaps darkness exists only to veil fear?

MIRACLES ARE SEEN IN LIGHT, AND LIGHT AND STRENGTH ARE ONE.

Darkness covers dreams to make them seem even more frightening and threatening than they are. Light reveals. It offers the reminder of God's Force in you, present in your Being, because It is the first expression of God's Will, and in It is contained the Force of Creation. It illuminates the Truth. And where Truth is established, Miracles become perceptible. And where Miracles are perceived, Light and Force are united in Purpose, in Forgiveness and in Love.
