

LIGHT MORE AND MORE LIGHT

Think about your home completely without light. Totally. Imagine all the spaces covered by a dense layer of darkness. A layer so thick that you cannot see the furniture and other familiar objects.

In the dark, we become completely confused about what we're "bumping into" ahead. If the sofa once served as a place to sit beside a friend, now it's perceived as a symbol of darkness. What once had a purpose now seems like "an obstacle" to your flow. Light a single candle. And what was impossible to your eyes suddenly reveals itself. The truth about each element, about every object, is re-established.

When we light a flame of Light, wishing that the Purpose of the Holy Spirit will give another function to the elements we usually perceive; when we wish that the Light will reveal the Remembrance of the Power of God present in each one of us; only then do Miracles become perceptible. And where Miracles are recognised, the Light of Forgiveness and the Power of Love make their Home.

Now, think of your world completely without light. Totally. Imagine all spaces covered by a dense layer of darkness. A layer so thick that you cannot see God and His Blessings. Shine! Shine so that His Light reveals the light of your world! So that Your Light reveals all Creation.
